Simplicity:

1. Siren Testing without leaving the Command Center
2. Automatic shutdown of false siren activation
3. Continuous monitoring and reporting of failures in siren system
4. Field programmable siren control monitors; Tones, Tone Timing and Siren Control Timers
5. One Button Operation Encoders
6. Mixed tone formats including DTMF and Digital
7. Multiple frequency receivers
8. Multiple frequency status monitors
9. Print-out and Display lights

Featuring:

Encoders

- Tone formats •
- DTMF •
- Digital •
- Micro processor base •
(all of the above in one encoder)
- Battery backup •
- Mobile capability •
- Alert flasher •
- On/Off Duty switches •
- Remote switching •
- Audio output jacks •
- Telescoping antenna •
- VHF and UHF frequencies •
- Synthesized RF frequencies •
